

QUALITY POLICY

INC Design Associates Ltd is committed to providing a quality design service delivering satisfaction to both the client and end user.

Internal procedures monitor progress of projects from inception through to completion.

All drawings and specifications are developed in accordance with our CAD Procedures Manual and inspected by the Design Team Leader and cross-checked with the design team before final issue.

The Design Team Leader reviews and issues an approval status on all shop drawings, specifications and material samples issued by sub-contractors and suppliers before construction commences.

INC Design Associates Ltd makes regular site inspections to monitor quality, progress and the contractor's adherence to the approved drawings and specification.

Through regular training, continued development and improvement the company will reinforce its image, competitiveness and reputation.
